

This welcome packet comes to you courtesy of the
Residential Advocacy Committee
This is its Mission Statement:

"The Residential Advocacy Committee was formed to serve as an advocate for residents of the town of Fenwick Island as our community experiences both residential and commercial growth. Resident voice in governance is essential to ensure a strong and vibrant community that reflects the desires of its residents. The Residential Advocacy Committee will provide residents of the town of Fenwick Island a direct connection to the town council, information on proposals that will affect them as well as an opportunity to voice approval, concern or suggestions regarding such proposals. Residents are encouraged to bring suggestions or concerns to the committee so that we may work collaboratively to preserve our open spaces and improve the appearance of our town with the collective goal of ensuring Fenwick remains a quiet, family-oriented community."

We encourage all residents to get involved in our community. It is the combined expertise and love of Fenwick from our residents that helps keep the town running smoothly.

Please visit fenwickisland.delaware.gov for more information as to the next meeting of the Residential Advocacy Committee or other meetings of the Town Council and other committees.

Do you have some spare time or want a way to meet new people? If you would like to volunteer to help with town events or assist our Town committees or the Town Council, we'd welcome your involvement! Please email us at townclerk@fenwickisland.org and someone will get back in touch with you.
